801 Brickell Ave #1300  
Miami, FL 33131

Dear Karen Gonzalez,

I am writing to express my strong interest in the Data Scientist role at MasterCard as advertised on LinkedIn. I am highly motivated, possess a strong educational background in relevant areas, and am eager to embark on a career in this exciting field. Here's why I believe I would be a valuable addition to your team:

**Education and Academic Achievements:**

- Data Science Track, Springboard
  - Relevant coursework includes statistics, machine learning, data analysis, and programming.
- Bachelor's Interdisciplinary Science, Arizona State University
  - Relevant coursework Statistics, Linear Algebra, Calculus.

**Technical Skills:**

- Proficient in programming languages such as Python and SQL, with a focus on data manipulation and analysis.
- Familiarity with data visualization tools like Tableau and data analysis libraries like pandas and numpy.
- Strong foundation in statistical concepts and their practical application.

**Project Experience:**

- Completed several independent projects and coursework assignments that involved data analysis, visualization, and interpretation.
- Demonstrated the ability to work with real-world datasets, extract insights, and communicate findings effectively.
- [Predicting Flight Delays at MIA](#)
- [Predicting Price of Amazon Stock](#)

**Problem-Solving and Learning Agility:**

- Adept at approaching complex problems logically and finding creative solutions.
- Quick learner with a strong commitment to ongoing self-improvement and staying updated with the latest developments in data science.

Thank you for considering my application. I am eager to discuss how my enthusiasm, willingness to learn, and analytical mindset make me a promising candidate for the Data Scientist role. Please find my resume attached for your reference.

Sincerely,  
Fernando Araiza
